## WORK EXPERIENCE

### Web Developer

04/2022 to Present

HoneyPot Furniture

Grantham, United Kingdom

- Employed Ahrefs and other technology to make line-code repairs and optimize corporate presence.
- Coded websites using HTML, CSS, SASS, JavaScript and Responsive Design.
- Worked closely with the development and design team to fulfil client requests and site updates
- Maintained website by checking for errors, large images and broken links
- Carried out day-to-day site audits accurately and efficiently, resulting in a healthy 91% score for the website.
- Implemented Amazon Reviews Custom Fields for business products using JavaScript
- Provided front-end website development using Bigcommerce CMS and other editing software.

### Web Developer (volunteering)

04/2022 to Present

Kocoon

Loughborough, United Kingdom

- Was responsible for getting the MVP (Minimal Viable Product) website up and running.
- Played a role in hiring UI/UX designers for faster development of future website updates.
- Key role in making the updated version 1.0 of the Kocoon website a reality, alongside a UI/UX design.
- Built and styled new mobile-friendly websites, transitioning legacy presentations to simultaneous easy-to-use versions.
- Engaged with clients to plan and optimize site issues and queries.

## Freelance Web Developer

03/2022 to Present

Self-employed

London, United Kingdom

- Designed, implemented and monitored web pages, plugins and functionality for continuous improvement.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, CSS, SASS, Responsive Design.
- Worked with colleagues and clients to understand website requirements and client needs. Writes, tests, and debugs code and applications. Maintains knowledge of programming languages.
- Design, build, test and deployed over 16 website in a short period of time for my portfolio and clients.

---
